European Digital Portfolio for University Students - EDIPUS

QUALITY ASSURANCE STATEMENT

[The aim and objectives of this project are:](#)

The **aim** of the EDIPUS project is to **enhance the employability of students and young job seekers in Europe.**

The **main objectives** of the EDIPUS project are:

- **The Creation of a digital tool called EDIPUS Digital Portfolio Portal (EDIPUS DPP)**, where students can create their own portfolio of experiences and qualifications in a creative and professional way, while also involving career counsellors and university advisors. The EDIPUS DPP aims to replace the traditional CV, by offering a smarter and modern tool to students for expressing themselves, supporting social media functionalities as well as smart phone communication.
- **The Creation of a Database of digital portfolios.** The EDIPUS portfolios will be hosted on this smart data base platform allowing employers to discover potential employees via a smart search engine of competence preferences and of job needs. The best developed university student portfolio will be the one that will allow an employer to offer a job to a university student without requiring to meet him/her face-to-face. This is the challenge for the university students to meet.

[The main target groups of this project are:](#)

- University students of all cycles and backgrounds in Europe and beyond
- Young people starting their professional career
- Academics, career experts and officers,
- Representatives from enterprises and other stakeholders

The tool is expected to contribute substantially to the development of students' communication skills, self-assessment and self-esteem and give a tool that allows benchmarking rating and facilitates mobility in the European and International ground.

Project EDIPUS: European Digital Portfolio for University Students**Reference number:** 2015-1-CY01-KA203-011856**Implementation period:** November 2015 – October 2017**Contact:** info@edipus.me , info@eaec.eu.com , T: +357-22894288The Basic Indicators of progress and success are:*At Project Management Level:*

- Schedule performance index (budgeted cost of work performed/budgeted cost of work scheduled)
- Cost performance index (budgeted cost of work performed/actual cost of work performed)
- Number of meetings carried out (target 5 transnational meetings)
- Number of deliverables submitted on time (Target 100%)
- Number of budget revisions (target 0)
- Number of reallocation of responsibilities (target <10%)

At Project Quality and Impact Level:

- Number of events organized per partner (target 1 local multiplier event)
- Number of trainings provide (target 100%)
- Number of visits of the project website (target >60/month)
- Number of stakeholders reached (target >100000)
- Number of students trained (target >250)
- Attendance rate at the trainings delivered (Target >90%)

At Monitor and Evaluate performance Level:

- Number of participants making use and accessing the Digital Portfolio Portal and the Database of Digital Portfolios (target >100);
- Number of the University services or other institutions promoting and embracing the DPP (target >100);
- Number of employers accessing the Database of Digital Portfolios to view student profiles (target >40);
- Number of people that attended each local events per country (target > 190);
- suggestions made from members of the target groups participating in the pilot phase for the training course (target < 15);
- Number of risks with high, medium and low impact which the partners addressed (target <1-2);
- Number of risks the partners avoided through the implementation of preventive actions (target =100%);

The Evaluation and Monitoring of the Quality of the project's activities and results will be achieved through the Quality Assurance Strategy which will be agreed amongst the project partners.

Out of this project we expect the following impact/ European added value elements:

Changing lives. Opening minds.

The EDIPUS project hopes to make an **impact on the employability opportunities of university students in Europe**, by improving their position in the labour market, specifically aiming to make a significant impact on strengthening their professional profiles and improving the tools available.

Furthermore the project aims to have **an impact on the way employers in Europe view profiles of prospective job candidates** and to make the process easier and more effective for everyone involved.

Finally the project aims **to improve in the long term the quality of services used by the students' university services**, as well as career consultants so as to guide young graduates. It aims in the adoption of the proposed tool throughout Europe.

Quality statement

We, the partners in the EDIPUS project, undertake to cooperate with all parties involved, abide by the rules and regulations specified or to be agreed in the meetings or set by the funding authorities. Furthermore we undertake to work promptly in order to produce outcomes of high quality and standards.

We, the partners of the EDIPUS project undertake to promote the Statement above

12.12.2015

Signed and approved by all partners
